A class by cheesemaker and author Gianacclis Caldwell is not to be missed! As a working farmstead cheesemaker—who also writes—Gianacclis Caldwell has the opportunity to continually perfect her understanding of the art and

science of cheesemaking. The material to be covered in this class is appropriate for beginning to advanced cheesemakers and will look specifically at the role of buffering and controlling acid as a way to direct cheese texture.

Class is sponsored by the CA Artisan Cheese Guild.
